| FUEL TYPE | Unleaded Petrol |
| DIMENSIONS | 650 x 480 x 525 mm |
| DRY WEIGHT | 65 kg |
| SELF PRIMING | Yes |

PRODUCT DETAILS

The 3" Trash Pump is powered by Honda GX270 petrol engines, designed to safely move contaminated water without being damaged. It is ideal for a range of tasks such as moving water containing solids (e.g. flood water), effluent pumping, slurry pumping and water transfer.

The pumps are made from heavy duty cast iron and features big, closed impellers that are resistant to wear. The quick release system allows rapid access to the impeller for removing debris. The MH30T-2 is capable of safely moving solids up to 25mm in diameter. A sturdy rollover frame makes for easy portability and protection of this hardworking pump. The hard wearing reliability, impressive performance and portability make this pump a popular choice for industrial and agricultural applications. SES brigades rely on this model for those reasons.

APPLICATIONS

- Small farming
- Gardening
- Boosts pressure / drawing water from tanks or rivers
- Drinking water
- General hobby activity

FEATURES

- Compact
- Automatic on/off
- Easy to use
- Dry-run protection
- Intelligent controller
- Water cooled motor
