

**PRODUCT DETAILS**

The WPH34R headlamp is the peak performer in the waterproof headlamp collection.

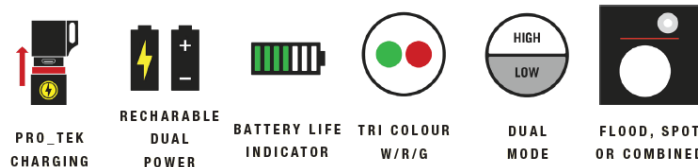

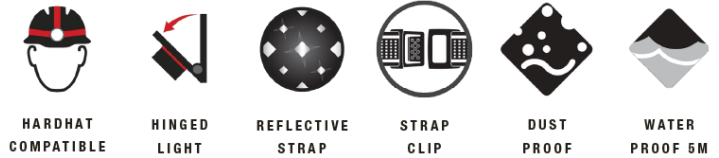

Engineered IP68 to withstand everything from spring rain to full submersion. This strong, versatile headlamp shines in five output modes and three different beam colors—white, red, and green.

The lightweight body rolls in its Clip N Twist bracket for directional control but can also detach to become a handheld light.

The silicone-lined, non-slip breathable mesh band with integrated buckle can be worn, hung, or strapped to structures for lighting convenience.

Overpower the night, outsmart the elements. WPH34R.
