

PRODUCT DETAILS

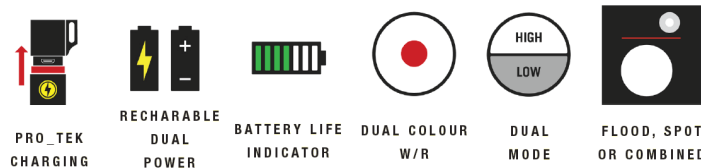

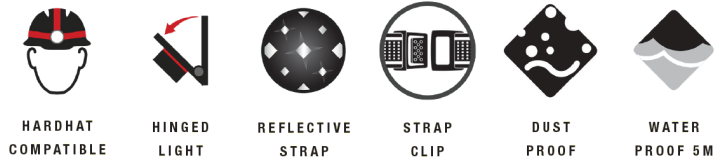

The WPH30R is the mid-size do-it-all model in the waterproof headlamp collection. Sealed tight to withstand full submersion, this IP68 headlamp has five output modes and two beam colors: white and red.

The light body rolls in its bracket for directional control but can also detach to become a handheld light.

The silicone-lined, non-slip breathable mesh band with integrated buckle can be worn, hung, or strapped to structures for lighting convenience.

Outmatch the dark with versatile lighting power.
