

PRODUCT DETAILS

Illuminate with perfect brightness. The RL10R headlamp features Variable Light Control which puts responsive lumens-control at your fingertips. A dial on top of the light body allows you to gradually increase or decrease light output from the white C.O.B (chip on board) utility beam. To prevent “night-blindness,” an anti-glare red LED option makes it easy to read in the dark or navigate with less reflection. The Rechargeable Plus power system runs on a ZITHION-X™ rechargeable battery.

A rear-facing safety signal on the back of the battery housing shines in solid red or flashing red with its own on/off switch so that others can easily spot you in the dark.

TECHNICAL DATA

LIGHT MODES	High, Low, Turbo
BEAM MODES	Variable Light Control Technology
REAR FACING	Red - Solid or Flashing
CHARGING	Charge in headlamp (USB-C) with indicator

IP RATING	IP 5 4
WEIGHT	227 grams
SUPPLIED WITH	USB-C Split Charging Cable
BATTERY	Rechargeable ZITHION-X™ ZX350 battery or 3 x AAA Alkaline
